

Wednesday		
Session 1: Danijela Gregurec	9:00 - 10:00	Registration
	10:00 - 10:30	Welcome Speech (Ingrid Span)
	10:30 - 11:10	Stefanie Klein <i>Magnetoplasmonic Nanoparticles for X-Ray triggered cancer therapy</i>
	11:10 - 11:20	Flash Talk: Christina Müdsam <i>With my feet in the air and my head on the ground</i>
	11:20 - 12:00	Müge Kasanmascheff <i>Unraveling Metalloenzymes: Insights from Advanced EPR Spectroscopy</i>
	12:00 - 13:00	Lunch Break
Session 2: Julien Bachmann	13:00 - 13:40	Helen Hölzel <i>Energy Management of Functional Molecular Materials</i>
	13:40 - 14:20	Malika Jeffries-El <i>Design and Synthesis of Organic Electronic Materials</i>
	14:20 - 15:00	Ilka Paulus <i>On the other side of the proposal</i>
Session 3: Siow Woon Ng	15:00 - 15:30	Coffee Break
	15:30 - 16:10	Martina Preiner <i>Energy Management of Functional Molecular Materials</i>
	16:10 - 16:20	Flash Talk: tba <i>tba</i>
	16:20 - 17:00	Jennifer Munkert <i>tba</i>
	19:00	Speakers' Dinner (upon invitation)

Thursday		
Session 4: Müge Kasanmascheff	9:00 - 9:40	Ani Özcelik <i>tba</i>
	9:40 - 10:20	Anastasia Hager <i>Expanding the Druggable Space – My scientific journey through the rapidly evolving world of pharmaceutical research</i>
	10:20 - 10:50	Coffee Break
Session 5: Ingrid Span	10:50 - 11:30	Laura Dassama <i>Chemical bioogy for human health</i>
	11:30 - 11:40	Flash Talk: Ecem Aydan Alkan <i>Tuning the Transparency and Exciton Transition of D-π-A-π-D Type Small Molecules</i>
	11:40 - 12:20	Joanna Jankowska <i>Computational (photo)chemist at work: Is there only one way to do it right?</i>
	12:20 - 13:30	Lunch Break
Session 6: Carolin Müller	13:30 - 14:10	Lisa Pecher <i>Chemical Connections Between People: A Place for the Authentic You</i>
	14:10 - 14:20	Flash Talk: Anabel Kummer <i>How does Gender Shape Science? The Entanglement of Scientific Competence and Fashion in Academic Physics</i>
	14:20 - 15:00	Maria Rentetzi <i>Women in Science: Why Should we Care?</i>
	15:00 - 16:30	Coffee Break with Round-Table Discussion
Session 7: Svetlana Tsogoeva	16:30 - 17:10	Luzia Gyr <i>Discovery of Antimicrobials Using High-Throughput Robotics</i>
	17:10 - 17:20	Flash Talk: Julia Ryll <i>Autofluorescent antimalarials by hybridization of artemisinin and coumarin: in vitro/in vivo studies and live-cell imaging</i>
	17:20 - 19:20	Poster session and Finger Food

Friday		
Session 8: Claudia Vilhena	10:15 - 10:55	Hannah Kurz <i>Towards multifunctional zinc(II) coordination cages</i>
	10:55 - 11:05	Flash Talk: Tamara Nagel <i>Towards pecision controlled 2D functional group patterning of graphene via laser writing</i>
	11:05 - 11:45	Grace Androga <i>Re-imagining diagnostics to strengthen African health systems</i>
	11:45 - 12:00	Award Ceremony and Closing Remarks
	12:00	Lunch and Farewell
